Education

Meerut Institute of Engineering & Technology

Bachelor of Technology in Computer Science Engineering (CGPA: 8.5/10)

Expected May 2027

Meerut, Uttar Pradesh

Experience

Computer Society of India (CSI), MIET

Web Development Head

August 2025 – Present

- Led the development and maintenance of the official **CSI MIET website** using the **MERN stack**.
- Developed responsive web interfaces and implemented new features while optimizing performance and user experience.
- Maintained and deployed production-ready website updates, ensuring reliable access for society events and announcements.

Projects

Nexus – MERN Quiz Platform | [GitHub](#) | [Live](#)

- **Developed** a full-stack **MERN** quiz platform with **JWT-based authentication** and role-based access control, enabling users to create, share, and attempt quizzes securely.
- **Engineered** an interactive analytics dashboard with **leaderboards, score distribution, performance trends, and CSV export** using **React, Recharts, Express.js, and MongoDB Atlas**.
- **Deployed** the application on **Vercel** and **Render** with **MongoDB Atlas**, implementing timer-based quiz attempts, automatic score calculation, responsive UI, and **RESTful API** integration.

CSI MIET Official Website | [Live](#)

- **Developed** the official **MERN** website with a secure **JWT-based admin dashboard** for managing events, announcements, and society content.
- **Built** a responsive **React.js** frontend with **RESTful APIs** and **deployed** the application on **Vercel, Render, and MongoDB Atlas**.

WanderLust – Airbnb-Inspired Property Rental Platform | [GitHub](#) | [Live](#)

- **Developed** a full-stack property rental platform using **Node.js, Express.js, MongoDB, and EJS** with **Passport.js** authentication, authorization, and complete CRUD functionality for listings and reviews.
- **Integrated MapTiler API** for interactive property location mapping and built a responsive **Bootstrap** interface with session management and flash messaging for an enhanced user experience.

Zerodha Trading Platform Clone | [GitHub](#) | [Live](#)

- **Developed** a full-stack trading platform clone using **React.js, Node.js, Express.js, and MongoDB**, featuring user authentication, portfolio tracking, and order management.
- **Built** separate **frontend, backend, and dashboard** modules with **RESTful API** integration, creating a responsive and modular application architecture.

Technical Skills

Languages: Java, JavaScript, Python, HTML, CSS, SQL

AI/ML: Prompt Engineering, LLMs

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, Docker, VS Code, Postman, Google Sheets

Research Tools: ChatGPT, Claude, Perplexity, ASI:One

Other Frameworks: MCP, React.js, Node.js, Next.js, RESTful APIs

Certificates

- **AWS Certified Cloud Practitioner (CLF-C02)**
- AWS Academy Graduate – Cloud Foundations
- AWS Academy Graduate – Cloud Architecting
- **NPTEL Programming in Java (Top 2%) – IIT Kharagpur**
- NPTEL Design & Analysis of Algorithms – IIT Madras
- NPTEL Soft Skills – IIT Kanpur
- MongoDB: Introduction to MongoDB
